ADDRESS. Wilmigron, N. C., Feb. 3, 1875. To the Citizens of North Carolina: The purpose of this address is to invite your attention to the regent organization of the Wilmington Branch of the Southern Life Insurance Com-

pany and the formation of a Board of In presenting its claims it is not eemed necessary to enter into an laborate argument upon the general

subject of Life Insurance. The proremains for us, then, only to endeavor to place before you such facts as will recommend this particular Company to your patronage. It has been officially stated that since the war about one hundred mil-

fions of dollars have been taken from the South for Life Insurance, and that annually from six to eight millions have for many years obscured the progress of medical science. The descriptioness of consumption is in urable? It terred that retaining this en rmous sum at home, o be invested among our own people, has long attracted the attention of the thoughtful. Such a yearly accession a new impetus to ie. pro-perityevery department of industry would feel its quickening influence, and every community be benefitted there- in however, it is equally clear that a v Southern Company must base its garendeah, his physicisms having pronounce tional prid alone, (though that may constand, sheethis recovery, many thousands honestly be appealed to, other things similarly affected have used Dr. Schenck's Great Britian, 12,350 to France, and propagations with the same remarkable such being equal,) but upon the plain busiless principles of security to policy-

nolders combined with economy of management. The Southern Life Insurance Comof the South. It has accumulated assets to \$2,500,000, and has paid liberal dividends to policy holders. It was the first life insurance company organized in the South after the war by key. A. A. Wessel, GEO. N. HARKINS for the purpose of arresting the drain and GATHARINE G., daughter of the late of money from the Southern States and investing it at home. REVIEW OF THE

WILMINGTON MARKETS, FOR THE

WEEK ENDING THURSDAY, Feb. 4, 1874.

COMMERCIAL EPITOME. - With the commencement of the Winter months, there is a general feeling of gratification that what has been a very dull season in trade, as well as in other respects, is rapidly drawing to a close, and all parties are now looking forward to an early and stirring Spring business. There is yet no change to note, however, but there seems to be a general belief that bet-

ter times cannot be much longer de-In our local market trade has been quiet and inactive, though the markets for most of the leading products have been firm in tone, and former prices have been fully maintained. Naval stores and cotton have b en active, but other branches of trade are quiet. The shipments of the principal products for the week show a slight increase of valuation over last week, and were as follows: 2,456 bales cotton, 155 casks spirits turpentine, 4,925 bbls Rosin, 419 bbls crude turpentine and 130 bbls tar; against 1,659 bales cotton, 183 casks spirits turpentine, 1,319 bols rosin, 46 bbls crude turpentine and 206 bbis tar, for last week.

Foreign freights are firm. The supply of tonnage at hand is not large and ressels are wanted. The chief features of the market and the changes of price of most of the the same figures.

leading products and manufacture for the week were as follows: COTTON-With a somewhat in creased readiness on the part of holders to meet the views of buyers, the transactions have been more liberal, but not large during the past week. Stocks have not been pressingly offered, but to a fair extent. The demand has been principally confined to orders for export. In quetations there were no changes to note during the week, and at the close the market subject of Life Insurance. The propriety of every man's availing hemself
of its benefits are now so universally
recognized by intelligent persons that
such action would be superflows. It

Saturday ..... 500 " Monday..... 244 " Tuesday. . . . . . . . . . . 95 " Wednesday ...... 896 " 3,004 bales for last week. The exports were 4,459 bales, and the stock is

5,567 bates. The general Cotton movement for the week was as follows: It appears e oney deable. It is now proved, however, that the total receipts for the seven days hat Consumption can be cured, and that that that have reached 115,700 bales, against 101,698 bales last week, 95,242 bales the previous week and 82,178 bales s by he s m mode he in connection with three weeks since, making the total receipts since the first of September, 1874, 2,527,620 bales, against 2,524,664 bales for the same period of 1873-74, showing an increase since September 1, 1874, of 2,956 bales. The exports to. He was cured by the aforesaid m discrete week ending reach a total of 20,522 to the rest of the Continent, while the stocks as made up are now
